

Inspection Report

Sea World LLC
500 Sea World Drive
San Diego, CA 92109

Customer ID: **3549**
Certificate: **93-C-0069**
Site: 001
SEA WORLD, L.L.C.

Type: RE-LICENSE INSPECTION
Date: 30-JUN-2026

3.105(d)

Feeding.

In the sea lion refrigerator, daily diet buckets were directly underneath the condenser unit and open to contamination from the unit. The edges of the condenser and drip pan had a flaky appearance that could directly contaminate the open food containers stored below. Maintenance of thawed food must be conducted in a manner that will minimize contamination and that will assure that food retains nutritive value and wholesome quality until the time of feeding.

Corrected during inspection.

3.152(b)

Facilities, outdoor

The flamingo habitat did not contain shelter sufficient for protection from the elements that was adequate for the number of birds in the enclosure. Shelter must be adequate to protect the birds from any adverse weather conditions and constructed to provide sufficient space to comfortably hold all of the birds at the same time. Outdoor housing facilities must provide adequate shelter appropriate to the species to allow the birds to access protection from inclement weather in order to ensure their welfare.

Corrected during inspection.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by 29 August 2026 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires on 20 August 2026.
