Type: ROUTINE INSPECTION  
Date: 09-JUL-2026

---

### 2.40(a)(1)

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

There was no current written Program of Veterinary Care (PVC) available for review at the time of the inspection. The licensee has established a formal arrangement with a new part-time veterinarian to serve as the Attending Veterinarian (AV) and they have provided veterinary care for the licensee's animal; however, a written PVC from the new AV has not been prepared and was not available as required.

Per this Section, each exhibitor shall employ an Attending Veterinarian under formal arrangements who shall provide adequate veterinary care to its animals to comply with this section. In the case of a part-time Attending Veterinarian or consultant arrangements, the formal arrangements shall include a written Program of Veterinary Care. The written PVC ensures that the AV has the authority to provide adequate veterinary care for the animals and has oversight of other aspects of animal care. The licensee needs a written PVC from the new Attending Veterinarian. Correct by 7/31/26.

This inspection and exit briefing were conducted with Licensee. representatives.
