Type: ROUTINE INSPECTION

Date: 28-JUL-2026

2.33(a)(2)

Attending veterinarian and adequate veterinary care.

During review of IACUC meeting minutes, APHIS Officials noted that the Attending Veterinarian (AV) and Senior Clinical Veterinarian (SCV) were asked on April 24, 2026 to recuse themselves from the meeting due to what the IACUC labeled conflict of interest. During the meeting the AV and SCV were asked to recuse themselves, conversations took place where animal care and use were discussed. Furthermore, the attending veterinarian was not allowed to vote on decisions that were made during the previously mentioned discussions. The removal of the AV, undermines the AV's role and authority in ensuring objective oversight of animal welfare concerns. Each research facility shall assure that the attending veterinarian has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.

To be corrected from July 28, 2026.

2.38(f)(1)

Critical

Miscellaneous.

On March 4, 2026, during routine husbandry activities in the naked-mole rat room, an animal escaped from its enclosure. During retrieval efforts, an animal care technician stepped on the naked mole rat. The attending veterinarian was notified and the decision was made to euthanized due to injuries. Proper care must be taken to prevent injuries to the naked mole rats. Handling of all animals shall be done as expeditiously and carefully as possible in a manner that does not cause trauma, overheating, excessive cooling, behavioral stress, physical harm, or unnecessary discomfort.

Corrected prior to the time of inspection.

This inspection and exit interview were conducted with Attending Veterinarian.
