Type: ROUTINE INSPECTION
Date: 28-AUG-2026

2.131(d)(2)

Handling of animals.

Certain areas where the public could contact animals lacked an attendant or employee. During inspection, a public member was seen petting a cow inside the dark blue barn and other public members could contact sheep and goats inside the same barn. This area inside the barn is not visible to the gate attendant and the petting zoo attendant. Lack of attendants/employees in areas that contact with animals is permitted does not ensure the safety of the animals and the public. A responsible, knowledgeable, and readily identifiable employee or attendant must be present at all times during periods of public contact.

***Correct from 8/29/2026 forward.

This inspection and exit interview were conducted with a facility representative.
