3.27(b)

Facilities, outdoor.

An APHIS official observed 10 guinea pigs housed in an outdoor enclosure. Housing guinea pigs outdoors has the potential to expose them to temperatures outside of their optimal range. The facility must ensure that guinea pigs are not housed in outdoor housing unless such facilities are located in an appropriate climate and prior approval for such outdoor housing is obtained from the Deputy Administrator. To be corrected by August 12, 2026.

This inspection and exit interview were conducted with facility representatives.
