2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

At the time of the inspection there was no recent documentation of the Attending Veterinarian's (AV's) biannual visits to the facility as outlined in the written Program of Veterinary Care. The facility representative did not know and could not tell the inspector the last time the AV visited when asked. The AV was contacted by phone on 8/14/2026 and admitted that they were overdue and did not recall the precise year of the last scheduled visit.

Regular visits to the facility are important because the AV evaluates the animals and their care and can give important professional advice regarding the health and welfare of the animals including all aspects of their husbandry.

Each dealer and exhibitor shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the premises of the dealer or exhibitor.

Correct by September 15, 2026.

This inspection and exit interview were conducted with a facility representative.
