WHITEWATER

Type: ROUTINE INSPECTION

Date: 18-MAY-2026

2.36(a)

Annual report.

An Annual Report of Research Facility for the use of animals has not been submitted for fiscal year 2025. Facility representatives confirmed that a report hasn't been submitted and that contact information not being updated likely led to representative(s) not receiving USDA's notification/instructions on annual report submission. This facility reported during inspection no use of AWA-regulated animals this past year, however an annual report is required to be submitted by Dec 1st each year (extended to Dec 31st in 2025 due to the government shutdown) by registered research facilities per the Animal Welfare Act to record the number and type of USDA-regulated animals used in research. Ensure to submit a 2025 Annual Report and then ensure that an annual report each year is submitted by December 1st that covers the previous fiscal year.

***Correct by 6/19/2026.

This inspection and exit interview were conducted with facility representatives. No regulated animals were on the premises at the time of inspection.
