Certificate: **86-C-0132**
Site: 001
Ghost Ranch Exotics LLC

Type: RE-LICENSE INSPECTION
Date: 06-OCT-2026

3.127(d)

Facilities, outdoor.

Multiple spots of the perimeter fence have soil erosion at the base to create openings the size of a human fist and greater (minimum 3 inches). The gate on the north side of the fence has gaps at the hinges and side jambs the size of a human fist. These openings may allow a wild animal to enter the premises and risk the welfare of animals to include predation. The fence must be constructed so that it protects the animals in the facility by restricting animals and unauthorized persons from going through it or under it and having contact with the animals in the facility, and so that it can function as a secondary containment system for the animals in the facility.

Correct by 13 October 2026.

3.153(a)(1)(i) **Repeat**

Primary enclosures.

Multiple outdoor enclosures for birds have sharp points present, including many sharp nails sticking through loose boards resting on top of approximately 5 foot tall shelters and sharp corners present on metal corrugated roofing for shelters. The adult birds affected include 2 geese, 2 emu, 6 chickens, 2 ducks and 1 swamphen. Failure to ensure that no sharp points are present in enclosures housing birds can result in injuries to the birds. The applicant must ensure that primary enclosures are constructed and designed so that they have no sharp points or edges that could injure the birds.

This is a 1st Re-License Inspection for a Class “C” license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by 05 December 2026 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

You may appeal this finding in writing by 13 October 2026.

Appeals may be sent by email to AnimalCare@usda.gov.
