Type: FOCUSED INSPECTION
Date: 06-OCT-2026

**3.58(a)**

**Classification and separation.**

Two adult rabbits were housed in the same primary enclosure as 1 capybara, 1 patagonian cavy, 1 cape porcupine, and 1 alpaca. These animals were being exhibited as a petting zoo on August 9, 2026 at a local mall. A brief video of this exhibition was submitted and shown to the licensee. The licensee indicated that these rabbits were not separated from the other species at this event. Housing rabbits with other species may result in injury or compatibility issues. Correct by ensuring rabbits are not housed in the same primary enclosure with any other species of animals unless required for scientific reasons.
Correct by October 27, 2026.

**3.137(e)**

**Primary enclosures used to transport live animals.**

The primary enclosures used to transport animals for exhibition do not have the appropriate marking and labeling required for transporting live animals. Accurately labeled enclosures allow for proper handling and care. For animal safety, unless the enclosures are permanently affixed to the conveyance, primary enclosures must be clearly marked on top and on one or more sides with the words “Live Animals” or “Wild Animals” in letters at least 1 inch (2.5 cm.) in height, and with arrows or other markings to indicate the correct upright position of the container.

Correct by October 27, 2026.

This inspection and exit interview were conducted with the licensee.

You may appeal all or part of any inspection report by submitting a written statement contesting the findings—along with any supporting documentation—to the Deputy Administrator. Appeals of routine, focused, or attempted inspections must be received within 21 days of report issuance as shown by the signature line of this report.

Appeals may be sent by email to AnimalCare@usda.gov.

Appeals sent by mail should be addressed to:
