3.13(a)(3)

Veterinary care for dogs.

The written program of veterinary care is incomplete. The program of veterinary care does not contain a schedule of vaccination for adult dogs against parvovirus and distemper. A program of veterinary care that does not contain a plan for routine vaccination of adult dogs does not allow APHIS official to assess that adequate veterinary care is being given. The licensee needs to develop and follow a written program of veterinary care that addresses proper vaccination of adult dogs against parvovirus and distemper.
