Type: ROUTINE INSPECTION
Date: 29-SEP-2026

2.75(b)(1)

Records: Dealers and exhibitors.

During inspection, no acquisition or disposition forms were available for review and an acquisition form dated 30 September 2026 was provided the day after the inspection concluded. This form is incomplete and missing required elements such as the date of acquisition, name and address from whom the animals were obtained and the species of animals. Failure to maintain complete acquisition and disposition records interferes with the ability to accurately identify animals and trace their movement. The licensee shall make, keep, and maintain records that fully and correctly disclose information concerning regulated animals purchased, born, hatched or otherwise acquired, as well as animals transported, sold, euthanized, or otherwise disposed.

Correct by 19 October 2026.

2.134(a)

Contingency planning.

The facility did not have an active contingency plan at time of inspection and provided a contingency plan dated 30 September 2026, the day after the inspection concluded. Failure to develop a complete contingency plan may result in poor response to emergencies that can negatively affect animal welfare. Each exhibitor must develop, document and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster. Corrected on 30 September 2026.

This inspection and exit interview were conducted with the facility representative.
