

Inspection Report

University of Rhode Island
70 Lower College Road
Kingston, RI 02881

Customer ID: **268**
Certificate: **15-R-0004**
Site: 001
University of Rhode Island

Type: ROUTINE INSPECTION
Date: 10-MAR-2026

2.31(d)(1)(ii)

Institutional Animal Care and Use Committee (IACUC).

IACUC approved Protocol #1718-001 did not provide a written narrative description of the methods and sources used to determine that alternatives were not available to procedures that are included in the protocol that may cause more than momentary pain or distress to the animals (tissue hypoxia, vascular cutdown, laparotomy, craniotomy, laminectomy, and tracheostomy).

Per this Section, whenever a proposal for animal use contains procedures that may cause more than momentary pain or distress to the animals, the IACUC shall determine that: (1) the principal investigator has considered alternatives to those procedures and (2) that the principal investigator has provided a written narrative description of the methods and sources used to determine that alternatives were not available. These requirements ensure that all procedures contained in the protocol minimize discomfort, distress, and pain to the animals. The IACUC needs to address this item that was identified for this protocol. Correct by 4/24/26.

2.31(e)(5)

Institutional Animal Care and Use Committee (IACUC).

IACUC approved Protocol #2425-014 did not contain a description of the method of euthanasia to be used for study animals.

Per this Section, a proposal to conduct an activity involving animals, or to make a significant change in an ongoing activity involving animals, must contain a description of any euthanasia method to be used. The IACUC needs to address this item that was identified for this protocol. Correct by 4/24/26.

This inspection and exit briefing were conducted with facility representatives.
