3.127(d)

Facilities, outdoor.

The current outdoor opossum enclosure does not have a perimeter fence around the structure. The opossum was moved to an outdoor enclosure that is a shed type structure with adequate fencing and materials to restrict other animals from entering but there is no written approval to have a variance for no perimeter fence from the administrator. This needs to be addressed and either a perimeter fence placed around the outdoor enclosure or written approval for a variance granted by the administrator.
