Moffat, CO 81143

Customer ID: **31400**
Certificate: **84-B-0101**
Site: 001
PATRICIA A. SHELLABARGER

Type: ROUTINE INSPECTION
Date: 16-SEP-2026

3.11(b)(2)

Cleaning, sanitization, housekeeping, and pest control.

Facility personnel stated that they sanitize the metal dog feeders approximately twice a year. Proper sanitization of food receptacles is important for reducing disease hazards and potential odors, dirt, debris, and bodily waste, which can lead to an increased risk of illness or disease. Used primary enclosures and food and water receptacles for dogs must be sanitized at least once every 2 weeks using one of the methods prescribed in paragraph (b)(3) of this section, and more often if necessary to prevent an accumulation of dirt, debris, food waste, excreta, and other disease hazards. To be corrected by September 18, 2026.

This inspection and exit interview were conducted with the licensee.

You may appeal all or part of any inspection report by submitting a written statement contesting the findings—along with any supporting documentation—to the Deputy Administrator. Appeals of routine, focused, or attempted inspections must be received within 21 days of report issuance as shown by the signature line of this report.

Appeals may be sent by email to AnimalCare@usda.gov.

Appeals sent by mail should be addressed to:
Deputy Administrator
