COLLEGE

Type: ROUTINE INSPECTION

Date: 10-SEP-2026

---

### 2.38(l)(2)

#### Miscellaneous.

The facility's contingency plan's last documented review was for the school year of 2015-2016. A facility representative described that the plan has been informally reviewed since then with discussions, however documented reviews have not been completed. Regular annual documented reviews of the contingency plan helps ensure that the facility has plans in place to care for animals during emergencies. The written contingency plan must be reviewed by the research facility on at least an annual basis to ensure that it adequately addresses the criteria listed in Animal Welfare Act section 2.38(l)(1). Each registrant must maintain documentation of their annual reviews, including documenting any amendments or changes made to their plan since the previous year's review, such as changes made as a result of recently predicted, but historically unforeseen, circumstances (e.g., weather extremes).

\*\*\*Correct by November 30, 2026.

This inspection and exit interview were conducted with a facility representative.
