

Inspection Report

Wyoming Game & Fish Department
2362 HIGHWAY 34
WHEATLAND, WY 82201

Customer ID: **1666**
Certificate: **83-R-0005**
Site: 001
WYOMING FISH & GAME

Type: ROUTINE INSPECTION
Date: 11-MAY-2026

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

There are four bottles of expired medications used for anesthetic procedures and sedation located in the controlled drug safe. Torphadine, Contrased, Diazepam, and Haloperidol are mixed in with all the other currently used medications. The use of expired medications is not considered to be a safe or appropriate method to prevent, control, diagnose, and treat diseases and injuries since the expected results cannot be guaranteed. In this case, these medications can be used to treat painful or stressful conditions in animals. The facility must ensure the use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries. The licensee must ensure all medications on-hand are not expired. The facility corrected this at time of inspection on May 11, 2026, by throwing expired medications away.

This inspection and exit interview were conducted with the facility representative.
