Type: ROUTINE INSPECTION
Date: 07-OCT-2026

3.152(b)

Facilities, outdoor

The facility houses numerous raptors in outdoor enclosures, and these enclosures do not have shelters. The facility representative stated that the birds have not had a shelter for approximately one month. The following enclosures lack compliant shelters:

* 2 vulture enclosures containing a total of 1 turkey vulture and 2 black vultures.
* 1 red-tailed hawk enclosure containing a total of 3 red-tailed hawks
* 1 peregrine falcon enclosure containing 1 peregrine falcon
* 1 red-shouldered hawk enclosure containing 2 red-shouldered hawks
* 1 great horned owl enclosure containing 1 great horned owl
* 1 barn owl enclosure containing 2 barn owls
* 1 barred owl enclosure containing 1 barred owl

Failure to provide shelters may not allow the birds to escape inclement weather conditions which could have a negative impact on their health and well-being.

Outdoor housing facilities must provide adequate shelter, appropriate to the species and physical condition of the birds, for the local climatic conditions to protect the birds from any adverse weather conditions. Shelters must be adequately ventilated in hot weather and have one or more separate areas of shade or other effective protection that is large enough to comfortably contain all the birds at one time and prevent their discomfort from direct sunlight, precipitation, or wind. Shelter must also be constructed to provide sufficient space to comfortably hold all of the birds at the same time without adverse intraspecific aggression or grouping of incompatible birds. For birds that form dominance hierarchies and that are maintained in social groupings, shelter(s) must be constructed so as to provide sufficient space to comfortably hold all the birds at the same time, including birds that are low in the hierarchy. The facility must add compliant shelters to each of the enclosures to ensure the birds can escape the local weather conditions and to help support their health and well-being.

Correction date: Shelters were added to the enclosures at the time of the inspection.

Inspection Report

This inspection and exit interview were conducted with the facility representative.

You may appeal all or part of any inspection report by submitting a written statement contesting the findings—along with any supporting documentation—to the Deputy Administrator. Appeals of routine, focused, or attempted inspections must be received within 21 days of report issuance as shown by the signature line of this report.

Appeals may be sent by email to AnimalCare@usda.gov.

Appeals sent by mail should be addressed to:
Deputy Administrator
APHIS Animal Care (AC)
U.S. Department of Agriculture
2150 Centre Avenue, Building B
Mailstop #3W11
Fort Collins, CO 80526-8117
