77 Vine Street
Douglas, MA 01516

Customer ID: **26120**
Certificate: **14-A-0039**
Site: 002
Coyote Consulting Company Inc

Type: RE-LICENSE INSPECTION
Date: 13-OCT-2026

3.125(a)

Facilities, general.

An APHIS official observed an excessive amount of rust, with pitting and flaking, on the metal bars of multiple enclosures housing pigs. This excessive rust affected a total of 15 pigs, with those housing breeding boars generally in worse condition. Flaking rust prevents adequate cleaning and sanitization of these enclosures' surfaces and may present an ingestion risk for these animals as well. The facility must ensure that housing facilities are maintained in good repair to protect the animals from injury and to contain the animals.

3.126(c)

Facilities, indoor.

An APHIS official observed two farrowing pens, housing a total of 5 mixed-sex piglets, with no lighting above the enclosures. Although the door to the housing facility was open, allowing for some natural light, there was insufficient lighting for routine inspection of both the animal and enclosures. Insufficient lighting may prevent the facility from carrying out animal husbandry tasks and daily observations. The facility must ensure that indoor housing facilities have ample lighting, by natural or artificial means, or both, of good quality, distribution, and duration as appropriate for the species involved.

This is a 1st Re-License Inspection for a Class “A” license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by December 12, 2026, or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

You may appeal this finding in writing by October 20, 2026.

Appeals may be sent by email to AnimalCare@usda.gov.

Appeals sent by mail should be addressed to:
Deputy Administrator
