3.1(e)

Housing facilities, general.

The feed room had a bag stored against the wall and had holes in it with rodent chew marks and rodent droppings on the bag. The room has had pest control in place, however improperly stored feed that rodents can get into can contaminate the feed and possibly make animals sick. Ensure to properly store feed and in a manner that prevents contamination and protection from vermin infestation.

***Correct by 9/12/2026.

This inspection and exit interview were conducted with a facility representative.
