3.18(d)

Care in transit.

During the layover portion of the transportation journey (waybill # 001-23257463), an 8-week-old puppy was removed from the primary enclosure and placed in a temporary floor pen in an office in the cargo facility. A facility representative confirmed that the primary enclosure was not being cleaned. Taking a dog out of its transport enclosure during transit can result in injury to the animal or its escape. Removal from the primary enclosure during transportation in commerce is prohibited (except during cleaning as required in § 3.15(b)) unless it is placed in another primary enclosure or a facility that meets the requirements of § 3.6 or § 3.15.

This inspection and exit interview were conducted with the airline representative.
