2.75(b)(1)

Records: Dealers and exhibitors.

- During the review of records, the licensee was unable to provide complete disposition records for birds. Cage cards are used to document births; however, these records are discarded after rearing and are not maintained. The facility tracks the number of birds sold but does not maintain records of birds that died or were euthanized.
Failure to maintain complete acquisition and disposition records interferes with the ability to accurately identify animals and trace their movement.
The licensee shall make, keep, and maintain records that fully and correctly disclose information concerning regulated animals purchased, born, hatched or otherwise acquired, as well as animals transported, sold, euthanized, or otherwise disposed.
Correct from 23 September 2026 onward

3.153(a)(2)

Primary enclosures.

- Two cages housing juveniles in building #2, and one cage housing juveniles in building #3 had an insufficient amount of perch space available for all birds. Enclosures housing perching birds must have a sufficient number of appropriate perches to comfortably hold all birds at the same time. Lack of perching space can be a potential source of stress to the enclosed animals. Licensee must ensure that each cage has an appropriate number of birds for that space.
