Facilities, outdoor.

A complete perimeter fence was not present for the newly constructed outdoor squirrel enclosure. The outdoor facility has existing perimeter fencing, however the gates are continuously left open to allow for foot traffic as well as cars to enter this part of the campus. This could allow animals as well as unwanted persons to access the animal housing area. All outdoor housing facilities must be enclosed by a perimeter fence, which for squirrel species, must be no less than 6 feet high. The facility must correct this issue.
