2.134(a)

Contingency planning.

There was no contingency plan available for review at time of inspection. Failure to maintain an adequate contingency plan could negatively impact the health and well-being of the animals. Registrants must develop, document, and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing, and care of animals in the event of an emergency or disaster (one of which could reasonably be anticipated and expected to be detrimental to the good health and well-being of the animals in their possession). Such contingency plans must address sections 1-4 (2.134(a)(1-4)) under this subpart.

This inspection and exit interview were conducted with the facility representative.
