3.153(c)

Primary enclosures.

Five ducks did not have a pool/aquatic area as required. Lack of a pool/aquatic area for ducks doesn't provide for their typical behaviors expressed in water. Primary enclosures housing wading and aquatic birds must contain a pool or other aquatic area (e.g., ponds, waterfalls, fountains, and other water features) and a dry area that allows easy ingress or egress of the pool or other aquatic area. Pools and other aquatic areas must be of sufficient surface area and depth to allow each bird to make normal postural and social adjustments.

Note: An area for wading was added prior to the exit interview and a facility representative discussed possible designs for an adequate swimming area.

This is a 1st Re-License Inspection for a Class C license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspection(s) by November 10, 2026 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

You may appeal this finding in writing by 9/18/2026.

Appeals may be sent by email to AnimalCare@usda.gov.
