Certificate: **74-T-0007**
Site: CID
American Airlines Inc.

Type: ROUTINE INSPECTION
Date: 10-MAR-2026

2.78(c)

Health certification and identification.

The registrant accepted two shipments of dogs that either did not have a health certificate or had a health certificate that was dated more than 10 days before the date of shipment.

*AWB 12661456 shipped on 5-July-2025- two dogs were accepted with a health certificate dated more than 10 days before shipment

*AWB 58930966 shipped on 11-October-2025- one dog was accepted without a health certificate, only a print out of the dog's medical records from a veterinary clinic

Failure to have receive shipments of dogs with a health certificate does not ensure that the animals being transported are healthy enough for the rigors of travel and are free of communicable or contagious diseases.

A carrier must not receive any live dog, cat or nonhuman primate for transportation unless and until it is accompanied by a health certificate issued within 10 days of shipment by a licensed veterinarian.

2.80(a)

Records, disposition.

The registrant did not maintain the record of a health certificate or consignor information for one dog shipped from CID to PHX on 18-December-2025 (no airway bill available). Health certificates are essential for ensuring the health status of the animal being transported and consignor information for disease traceability can be reviewed by APHIS officials. No carrier shall for a period of 1 year, destroy or dispose of any records required to be kept and maintained.

This inspection and exit interview were conducted with a facility representative.
