2.1(a)(1)

Requirements and application.

The facility has been conducting regulated activity without a valid USDA license. The owner was contacted by USDA officials in August 2025 and was informed that a license was required to exhibit their current animals on hand. Due to a complaint, a USDA official inspected this facility and did determine the facility is still conducting regulated activity by exhibiting birds, guinea pigs, ferrets, goats, sheep, a hedgehog, llama, and zebu. A valid license is necessary to protect the health and well-being of the animals and to comply with the Animal Welfare Act and Regulations. The facility needs to obtain a USDA license or discontinue regulated activities.

No regulated activities may be conducted until a USDA license is obtained.

This inspection and exit interview were conducted with facility representative.
