Exotic Animal Exhibits

Type: ROUTINE INSPECTION

Date: 08-MAY-2026

2.1(b)(2)(i)

Requirements and application

The facility has exceeded the maximum number of animals allowed on their license. The license has authorized up to 100 animals, and the facility currently has 121 animals.

The USDA license authorizes a specific number of animals to ensure that the facility and personnel possess adequate facilities, employees and education to provide sufficient husbandry to the regulated animals.

A licensee must obtain a new license before any change resulting in more than the authorized number of animals on hand at any single point in time during the period of licensure. To obtain the new license, the licensee must reapply for a license that properly reflects the number of regulated animals on the property. Or they may reduce the number of regulated animals to a number which is under the maximum threshold authorized under the current license.

Correct by June 5, 2026

This inspection and exit interview were conducted with the licensee.
