Type: ROUTINE INSPECTION
Date: 30-SEP-2026

3.11(a)

Cleaning, sanitization, housekeeping, and pest control.

- Multiple outdoor enclosures had an excessive accumulation of feces. When questioned about cleaning frequency licensee stated that runs were cleaned "about once a week". Excreta and waste must be removed from primary enclosures at least daily. An accumulation of waste is a potential source of contamination to the dogs, and could be an attractant to flies and other pests. Facility must clean the pens, and must have an appropriate frequency of cleaning going forward.
Correct by: 5 October 2026

This inspection and exit interview were conducted with facility representative.
You may appeal all or part of any inspection report by submitting a written statement contesting the findings—along with any supporting documentation—to the Deputy Administrator. Appeals of routine, focused, or attempted inspections must be received within 21 days of report issuance as shown by the signature line of this report.

Appeals may be sent by email to AnimalCare@usda.gov.

Appeals sent by mail should be addressed to:
