Inspection Report

North Florida Wildlife Center

1386 Cook Road
Lamont, FL 32336

Customer ID: **507580**
Certificate: **58-C-1240**
Site: 001
North Florida Wildlife Center

Type: ROUTINE INSPECTION
Date: 29-SEP-2026

3.125(a)

Facilities, general.

The enclosure housing 2 adult grey fox is not being kept in good repair. There are multiple areas along the elevated walkway and resting area where rust had fully deteriorated spots on the wire enclosure walls.
Rust to this compromises the strength and security of the enclosure and prevents proper cleaning. Enclosures that are not kept in good repair can result in injury or escape. The facility must be constructed of such material and of such strength as appropriate for the animals involved. The housing facilities shall be maintained in good repair to protect the animals from injury and to contain the animals.

This inspection and exit interview were conducted with a facility representative.

You may appeal all or part of any inspection report by submitting a written statement contesting the findings—along with any supporting documentation—to the Deputy Administrator. Appeals of routine, focused, or attempted inspections must be received within 21 days of report issuance as shown by the signature line of this report.

Appeals may be sent by email to AnimalCare@usda.gov.

Appeals sent by mail should be addressed to:
Deputy Administrator
APHIS Animal Care (AC)
