2.131(c)(1)

Handling of animals.

***On September 5, 2026 while extending his hand out to feed the camels at the feeding window of the camel enclosure a man was bitten by the camel. The facility stated that it appeared the customers cuticle of one finger had been nicked causing it to bleed. The facility failed to protect a member of the public from injury during the encounter.

During public exhibition all animals are required to be handled so there is minimal risk of harm to the animal and to the public with sufficient distance and/or barriers between the animal and the viewing public.

This inspection and exit interview were conducted with the Owner.
