Type: ROUTINE INSPECTION
Date: 24-APR-2026

2.126(c)

Access and inspection of records and property; submission of itineraries.

No itinerary was submitted to APHIS by the licensee as verbally confirmed by the licensee for overnight stay exhibition at the Pima County Fair from 16 April - 26 April 2026. Submitting an itinerary for traveling animals is crucial for APHIS inspectors to carry out their duties in accordance with the Animal Welfare Act. A written itinerary is required to be submitted to APHIS no fewer than two days in advance of any overnight travel and shall contain complete and accurate information concerning the whereabouts of any animal intended for exhibition at any location other than the person's approved site.

Correct from this date forward of 01 May 2026.

2.134(a)

Contingency planning.

During record review, it was discovered that the facility had parts of contingency plan, but it was incomplete. The plan is missing a chain of command, an outline of specific tasks that would be carried out in relation to the animals for some of the identified emergencies or disasters, as well as a plan to address response and recovery. Failure to maintain an adequate contingency plan could negatively impact the health and well-being of the animals. Exhibitors must develop, document, and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster (one of which could reasonably be anticipated and expected to be detrimental to the good health and well-being of the animals in their possession). Such contingency plans must address sections 1-4 (2.134(a)(1-4)) under this subpart.

Correct by 31 May 2026.

2.134(b)

Contingency planning.

There is no documentation maintained to indicate that an annual review of the contingency plan has been completed. Failure to review the plan may result in an adverse impact to animal welfare during emergencies, such as delay in seeking medical care. The contingency plan must be reviewed by the facility on at least an annual basis to ensure that it

Inspection Report

adequately addresses all required contingency-related criteria and that no updates or changes need to be made to the plan such as changes made as a result of any recent unforeseen circumstance or the addition of new species. The facility must maintain documentation of their contingency plan annual reviews including documenting any amendments or changes made since the previous year's review.

Correct by 31 May 2026.

This inspection was conducted at the Pima County Fair in Tucson, Arizona.

This inspection and exit interview were conducted with the licensee.
