Type: FOCUSED INSPECTION
Date: 14-MAY-2026

2.31(c)(3)

Institutional Animal Care and Use Committee (IACUC).

The semi-annual reports to the Institutional Official (IO) dated 9/26/25 and 4/16/26 were reviewed. Both reports stated that there were no departures to the Animal Welfare Act during the reporting periods covered by each of these IO Reports. However, IACUC approved protocol #25008 contains an IACUC approved departure from the provisions of the AWA under Subpart F Other Species; Facilities, Indoor - Lighting.

Per this Section, the reports prepared by the IACUC following their semi-annual reviews of the animal facilities and the program for animal use must contain a description of the nature and extent of the research facility's adherence to this subchapter, must identify specifically any departures from the provisions of title 9, chapter I, subchapter A – Animal Welfare, and must state the reasons for each departure. The requirement that IACUC approved departures to the AWA be included in the Semi-annual Report to the IO ensures that the Institutional Official, who is authorized to legally commit on behalf of the institution that all of the requirements of the AWA 9 CFR will be met, is kept informed about the departures as part of their regulatory oversight of the research activities at the institution.

Correct by revising and re-submitting the 4/16/26 Semi-annual Report to the IO to include the required information regarding the departure to the AWA by 7/15/26 and all IACUC approved departures to the AWA must be included on all future semi-annual reports to the IO.

This inspection and exit briefing were conducted with facility representative.
