### 2.131(c)(1)

#### Handling of animals.

In February 2026, a member of the public was participating in an encounter with two otters when he was bitten on the hand. According to the licensee, one of the otters grabbed onto the base of the guest's shirt. When the guest tried to remove the otter, the otter bit his finger, resulting in a shallow puncture.

Failure to handle animals in a manner that minimizes risk can result in injury or be harmful to the health and well-being of the animal or the public. During public exhibitions, any animal must be handled so there is minimal risk of harm to the animal and to the public.

To be corrected from this day, April 23, 2026, forward.

This inspection and exit interview were conducted with the licensee.
