Environment enhancement to promote psychological well-being.

The facility did not have a documented program of environmental enhancement for the ring tailed lemurs housed at the facility at the time of inspection.

An environmental enhancement program is essential in promoting the psychological well-being of non-human primates.

Dealers, exhibitors, and research facilities must develop, document, and follow an appropriate plan for environment enhancement adequate to promote the psychological well-being of non-human primates, it must be in accordance with the currently accepted professional standards and as directed by the attending veterinarian.

To be corrected by 3/9/26.

This inspection and exit interview were conducted with the facility representative.
