Consignments to carriers and intermediate handlers.

On December 29, 2025, the registrant accepted a dog for transport more than 6 hours before the scheduled departure time of a flight.

Per the registrant's digital records, one adult Corgi was accepted for transport at 7:20 PM on December 29, 2025, approximately 13.5 hours before the scheduled departure. The animal was scheduled to fly from Chicago ORD to Seoul ICN Airport via Taipei, Taiwan (Waybill #695-5496736). The flight departed approximately on time at 8:59 AM the following morning on December 30, 2025. The records are congruent with employees' stated recollection of the animal's transport.

Accepting an animal more than 6 hours before its scheduled departure time extends their time confined in transport enclosures, which can increase risk of adverse health and welfare effects of animal transport.

Carriers must not accept a dog or cat for transport in commerce more than 4 hours before the scheduled departure time of the primary conveyance on which the animal is to be transported. However, a carrier or intermediate handler may agree with anyone consigning a dog or cat to extend this time by up to 2 hours.

This inspection and exit interview were conducted with a facility representative.
