2.131(b)(1) Critical

Handling of animals.

On July 3, 2026, a Red Tail Hawk escaped its enclosures when an intern failed to shut and latch the outer door of a double door entry prior to opening the inner door into the enclosure. The fully flighted Red Tail Hawk escaped through the doors and flew into nearby trees where it was harassed by a mob of crows and flew off. In this incidents, the handling was not done as expeditiously and carefully as possible resulting in the escape of the bird and it was not recovered.

Handling of all animals shall be done as expeditiously and carefully as possible in a manner that does not cause trauma, overheating, excessive cooling, behavioral stress, physical harm or unnecessary discomfort.

Corrected by the time of inspection on 28 August 2026

This inspection and exit interview were conducted with facility representative.
