Primary enclosures.

A primary enclosure housing 8 geese and another primary enclosure housing 6 geese both did not contain a pool or other aquatic area. Failure to provide an aquatic area prevents these birds from exhibiting certain normal, species behaviors and can lead to poor condition, debility, stress, and abnormal behavioral patterns. Primary enclosures housing wading and aquatic birds must contain a pool or other aquatic areas (e.g., ponds, waterfalls, fountains, and other water features) and a dry area that allows easy ingress or egress of the pool or other aquatic area. Pools and other aquatic areas must be of sufficient surface area and depth to allow each bird to make normal postural and social adjustments, such as immersion, bathing or swimming with adequate freedom of movement and freedom to escape from aggression demonstrated by other birds in the enclosure.

Correct by 10/21/2026.

This inspection and exit interview were conducted with facility representatives.

You may appeal all or part of any inspection report by submitting a written statement contesting the findings—along with any supporting documentation—to the Deputy Administrator. Appeals of routine, focused, or attempted inspections must be received within 21 days of report issuance as shown by the signature line of this report.
