Type: RE-LICENSE INSPECTION
Date: 14-OCT-2026

2.75(b)(1) **Repeat**

Records: Dealers and exhibitors.

The current records of animals on hand are not correct.
* An armadillo at the facility is not listed and there are no acquisition forms showing when and where the animal originated from.
* One llama on records does not have the information stating where it came from, when it arrived and sex of the animal.
* One Alpaca is notated on records but is no longer at the facility and there is no date or records of disposition.

The records of animals at the facility need to be maintained in a timely and accurate manner for record keeping purposes and to show movement of animals. Every exhibitor shall make, keep, and maintain records or forms which fully and correctly disclose the following information concerning animals purchased or otherwise acquired, owned, held, leased, or otherwise in his or her possession or under his or her control, or which is transported, sold, euthanized, or otherwise disposed of by that dealer or exhibitor.

3.127(b)

Facilities, outdoor.

The facility does not have shelter for the cow, zebu, goats and llama's at the facility. Per the licensee a new barn was to be delivered the day of the inspection but had not arrived by the end of the inspection process. Not having access to a shelter with colder fall temperatures occurring overnight could be distressful for the animals and animals should always have the choice to seek shelter if needed.

Shelter from inclement weather conditions for the species concerned shall be provided for all animals kept outdoors to afford them protection and to prevent discomfort to such animals.

This is a 1st Re-License Inspection for a Class “C” license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within (2) more inspection(s) or by Dec 14, 2026 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.
